**Subject:** Regarding the Animas River.  
[removed.txt](#)  
[Before & After Document ALL Photos.docx](#)

Mr. McGrath,

We are a full service contracting company specializing in Ground and Water Control, as we have viewed the situation with the Animas river we would like to enquire if there are any plans to seal the Mine Entry.

We have worked on such projects on many occasions and would value the opportunity to discuss these issues with yourself or any other entity involved.

Above, I make an attachment showing some of our work, for further information please view our website as below.

Although I am sure you are extremely busy at this point, I believe we can be of assistance to you in this situation.

Please feel free to contact me at your convenience.

Kindest regards,

Eric. W. Smith.
